Ph#:

Saddle fitting date:

**Order Initiated:
Build Start:**

**Tree Ordered:
Date shipped:**

**Tree Arrived:
Tracking#:**

Your contract agreement and the ordering procedure is as follows

- #1) Go To my website & read all pages on saddles & ordering so you know my policies & warranty before ordering: [https://www.therightfitequine.com/the-purpose-of-the-right-fit-saddle.](https://www.therightfitequine.com/the-purpose-of-the-right-fit-saddle) (All saddles start out untooled)
- #2) Print this order form. If you get overwhelmed, call me & I will personally help you design your saddle. It is customary for many changes to be made at this point in the process. It's harder than one could imagine. So relax, I will help you make choices. Once you are satisfied with your choices, I will type the form and email a copy to you. Then I will remit it to my saddle builder as a "draft" for his review. This provides him the opportunity to make any adjustments after he sees which saddle tree he is building on.
- #3) When your order is finalized, I will submit a "FINAL DRAFT. It is guaranteed for 30 days.
- #4) Down payment to initiate your order is \$600.00. You may remit your down payment at any time. Once it is received this contract becomes legitimate & binding.
- #5) Your saddle tree will not be ordered until your down payment is received. The tree will be finished in 4 weeks.
- #6) Your 2nd payment of \$600.00 is due before your saddle begins construction.
- #7) Saddle orders do not enter the Que until the tree arrives. Once your saddle is put into que the time frame for completion ranges between 2-4 months. You will be given a general idea of a completion. This is dependent upon how many saddles are being built ahead of yours.
- #8) Finished pictures will be sent to you via email or text. Compare these pictures to your written order. If anything is not right this is the time to correct it. If you need additional pictures to feel at ease that your saddle is correct before remitting your final payment, please ask for them.
- #9) Your finished saddle will set in the shop for 5 days before shipping to ensure glues have dried & leather can cure & not be as tender & susceptible to dents/scratches that can occur during shipping. If they do occur, we apologize, but once the saddle leaves the shop we no longer have control over it. Therefore, it is not warrantable, because it's not correctable without rebuilding the entire saddle. Which we will not do.
- #10) The serial number will be stamped on the bottom skirt under the left fender as follows: 2 letter tree type, gullet width, year, and your initials. The left billet keeper is stamped with model and seat size of the bare tree.
- #11) Final payment is due before the saddle ships directly to you. UPS tracking will be provided.
- #12) Cashier's Check, Money Orders, Personal Checks, Venmo, Google Pay, or Messenger Pay are preferred forms of payment since there is no fee to process your payment. A 4% FEE applied to credit card & Pay Pal payments.

Non-refundable fees

There is a \$250.00 non-refundable fee if you have placed your down payment or a partial down payment and then cancel after 90 days from the order initiation date above, or cancel after your tree has been ordered. If you do not want the saddle after your saddle build has been started, the \$600.00 down payment will not be refunded. We retain it to cover a small portion of our expenses. If you receive your saddle and wish to return it for ANY reason after you have received it- you may do so. However, \$750.00 of the purchase price will be retained and the remainder of the amount paid will be refunded. We retain this amount to cover a small portion of our expenses.

Reining Saddles

___ The Jan Close Contact #200RTS ___ #200RTD

___ The Ali #400ROS ___ #400ROD

The 1st letter means saddle type

"S" on end of the model# = Single Skirt

The 2nd letter(if there is one) means skirt shape

"D" on end of model# = double skirt

Saddle Base Price: \$1,850.00

Standard rigging is a C hung off the bottom skirt (In-Skirt)

All saddles start out with a Cheyenne roll binding on the back of seat, and are Not tooled, and do not include: stirrups, rear Dee, rear cinch assembly, strings, leather tie latigo/off billet.

The website pages will assist you with pictures and descriptions of all options. Follow the order form to build your custom saddle and add up the numbers when you are finished.

Call me if you need assistance.

Desired Saddle length:

__26" __27" __27.5

Saddle Tree (Leave blank. I will fill the tree options when we discuss your order)

Bar fit: Gullet Width: Horn#: Swell#: Cantl#: Seat:

Upgrades and/or exchanges made to standard tree @ \$25.00 each: **Add Cost: \$**

Tree Modifications (this only matters if I have saddle fit for you): **Add Cost: \$**

Saddle Leather Color

Select from these 2 Colors: ___Natural ___Light Oil(3 coats)

Upgrade to Drum Dyed Leather (\$150.): Leather is dunked in a tank with dye for a period of time. Color saturates deeper into leather therefore more scratch and fade resistant

___Bright Chestnut ___Mahogany ___Chocolate ___Walnut ___Black **Add Cost: \$**

Double dye or antiquing (\$150.):

___ Mahogany Rustic ___Chocolate Rustic ___Antiquing **Add Cost: \$**

Seat Options (standard option included with saddle)

Suede. ___Black ___Lt Choc ___Dark Choc ___Toast ___Rust ___Wine ___Forest green

Upgrades:

___Smooth Leather: (\$60.) **Color:** _____Text me for current selection of leather **Add Cost: \$**

Seat Pocket

___ Low rise (1/2") (No added height in front of seat- minimal rise in front of seat- considered a flat seat)

___ Med rise (3/4") (gentle rise in front to support pelvis but not invasive)

___ High Rise (1")

The rise in the front of your seat determines how deep the pocket is that you set in. I suggest Medium if you are uncertain. (Men should choose low.)

___ Narrow Hip Seat Shape #1 (10.5" across pad in seat base. 5" across the twist between thighs)

___ Wide Hip Seat Shape #2 (11.5" across the pad in seat base. 5.5" across the twist between thighs)

**I advise you to research what is comfortable for you based upon your current saddle measurements

Border Tool (Please provide pictures & instructions)**Name of Border Tool:**

Bottom Skirt: (\$60.) Top Skirt: (\$40.) Swells: (\$20.) Cantle Back: (\$20.)
 Cantle Binding: (\$10.) Jockeys: (\$40.) Fenders: (\$50.) **Add Cost: \$**

Instructions:**Fill Tool (Commonly referred to as basket stamp. Please provide pictures & Instructions):****Name of Stamp:**

Bottom Skirt: (\$100.) Top Skirt: (\$50.) Swell: (\$30.) Cantle Back: (\$20.) Binding: (\$10.)
 Fender Corners: (\$40.) Rear of Jockey: (\$40.) **Add Cost: \$**

Custom Carving (Please provide pictures & Instructions. Please note that if you have a pattern you would like it may have an additional cost of \$100. to fit your skirt shape.)

Large or Small Sheridan Wild Rose Lilly Cactus Flower Daisy Poinsettia
 Sunflower Oak Leaf Feathers 1.5" Aztec Border
 swells jockey fenders bottom skirt top skirt cantle back

If you want the area chosen filled the carver will fill them and count the flowers to price the area. Small skirts accept fewer flowers. Larger skirts take more flowers to fill. If you need a price quote in advance, I will contact the carver to get a quote for you so you can approve the order or make adjustments before the saddle build becomes final.

\$50.00 per pair of flowers and vines.

Add Cost:\$

Instructions:**Oil (Information Found on Leather Colors page)**

3 coats of oil (restores the moisture lost when wetted repeatedly throughout the build process & adds 1 more coat)

3 coats temporarily changes leather color but as it soaks in the leather will return to 1 shade darker than before oiled

All of the below will darken saddle considerably

(5 coats noticeably softens) (6 coats makes it buttery) (8 will leave residue on clothes at 1st)

Additional coats of oil: #: _____ @ \$10. ea

Add Cost:\$

Sealer (The choices I offer do not smother the leather- there are others. I simply do not carry them)

Black Rock Finish (Will darken color, conditions, water proof, protects)

Ray Holes Saddle Butter (Non-darkening- conditions, water proof, protects)
